Everything here is geared toward young kids. Easter, Christmas type activities. Selection and prices in vending machines are poor, over priced and in many cases past their expiration dates. If the item is not sold out. Better attention to employees needs or wants. I stopped going to vending machines because of the above reasons. Also don't really know what the higher prices that are charged support.

I would walk or bike to work if the Gillespie gate was open for entry in the morning. It has been closed for entry since 9/11/01.

This survey is skewed to larger posts with more facilities. It is really unfair to apply these concerns to a smaller post like Watervliet Arsenal, that simply doesn't have the internal population base, space, or need for many of the activities and hobbies listed. There is no consideration, it appears, for the fact that we are located in an urban area, where many of these services are located close by, at reasonable prices. In addition, where there are 'on-post' access items - such as airline ticketing (through Carlson Wagonlit by phone), we are not allowed to use it for leisure travel - so the questions in some areas are completely off base. The most unfair thing is that some of the unique activities sponsored here, like children's Xmas, Easter, and other parties, the children's summer camp, discounted movie tickets etc are not addressed. These things I have used and I would not like to see them go away.

We are a predominately civilian workforce on a small base. Thus, there is not the demand for the range of MWF/ACS activities that one would find at a larger more troop-based post.

Many of the items in this survey do not apply to the Watervliet Arsenal, Watervliet, NY. Don't have library, rec center, bowling center, etc.

The largest unit/organization on this installation was not a selection in question # 13 -- Arsenal employee (civilian) (currently 670).

Note: Arsenal Partnership is a small commercial organization (4 people).

My post has few assigned military.

It is mostly civilian so there are few activities offered compared to a major installation with a significant amount of military personnel.

I see waste in that we purchase boats, camping equipment etc and yet we have no active military assigned to this installation with the exception of the commander.
I am not even sure that tenants who are military are allowed to use these items or know about them. I also see child care svices provided in the summer which have few military participants and more civilians who can afford to pay full price somewhere else for their child care. I don't believe the military who are already struggling for money for required services should be subsidizing services for civilians who are financially able to provide for their children. There should be a limit on the income of people participating in these programs. If they're for the military then the military should be receiving the benefits. I have checked before when we have purchased boats and although legal it was viewed as somewhat unethical to be purchasing boats for use by civilians who could afford to buy or rent their own.

The golf course here at WVA is privately run by the golf association - not MWR. There is no post library. The post restaurant/officer's club is closed except for special occasions and has priced itself so far beyond normal prices that we do not use the facilities even when we have luncheon's for visitors (military &/or civilian). It's cheaper for us to drive out of the gate for boxed lunches than it is to order the meals from the post restaurant... And the food is better offpost.

!!!!Snacks bars throughout the installation have gotten better over the past year or so - they don't run out of food as often as they did previously. Restocking of high selling items is being done on a daily basis now - it was more like a weekly basis a year or so ago. NICE JOB!!!!

I do not use the Fitness Center (The Body Forge) but I understand from people who do that the fitness machines, the handball/racquetball courts are very nice. I also do not use the tennis courts or the swimming pool but have not heard anything bad about those facilities either.

The on-post summer camp is highly recommended and might even have a waiting list. Good idea to have this done onpost!

Provide a designated indoor walking area for incimate months. Currently, utilize one of the buildings, but can be hard to navigate at times.

If the eating facilities were better for lunch (i.e. have a regular fast food restaurant on post - such as subway), obtaining lunch would be more likely on post.

I use the NAVY MWR facilities in Ballston Spa, NY. They have good ITR and outdoor rec. availability. Staff has been courteous and helpful. Your survey should have asked about "other" MWR facilities - Watervliet Arsenal is too far from my home for practical use.
